RESTRICTION SUBJECT

Standard Specification for Consumer Product Safety for Children's Jewellery

ASTM F2923 International's Standard Consumer Safety Specification for Children's Jewellery was published in November 2011. ASTM F2923 covers children's jewellery that is intended primarily for use by children 12 and under but does not include toy jewellery, such as jewellery that is used with a doll or stuffed animal. Such products are included in ASTM F 963, Standard Consumer Safety Specification for Toy Safety.

This specification establishes requirements and test methods for specified elements and certain mechanical hazards in children's jewellery. It also includes recommendations for age labelling and warnings, as well as guidelines on identifying the primary intended users, namely children or adults.

**REQUIREMENTS OF THIS STANDARD ARE FULLY MET BY PRODUCTS
WITH PICTOGRAM LEAD FREE BRILLIANCE.**
