

Proposition 65

TERRITORY

USA (California)

Proposition 65 (=The Safe Drinking Water and Toxic Enforcement Act of 1986) is Californian law which was approved in November 1986. Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals which are mentioned on Proposition 65 List of Chemicals. These chemicals can cause cancer, birth defects or other reproductive harm.

Proposition 65 does not require the elimination of a listed chemical, nor does it prevent the sale of a product that contains a listed chemical, but only requires that the information about content of chemicals were provided. Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

All products of Preciosa can contain some substances from the List of Chemicals. From this reason Preciosa crystal components are subject to the labelling requirement.
