## OEKO-TEX

### TERRITORY

World

The STANDARD 100 by OEKO-TEX® is a worldwide consistent, independent testing and certification system for raw, semi-finished, and finished textile products at all processing levels, as well as accessory materials used which was passed in 1992.

The OEKO-TEX® tests for harmful substances are fundamentally based on the respective purpose of the textiles and materials. The more intensive the skin contact of a product and the more sensitive the skin, the stricter the human-ecological requirements that need to be complied with.

### ACCORDINGLY, A DISTINCTION IS MADE BETWEEN FOUR PRODUCT CLASSES:

Product class I: Articles for babies and toddlers up to 3 years of age (underwear, rompers, clothing, bed linen, terry products etc.)

Product class II: Articles that are worn close to the skin (underwear, bed linen, t-shirts, socks etc.)

Product class III: Articles used away from the skin (jackets, coats etc.)

Product class IV: Decoration/Furnishing materials (curtains, tablecloths, upholstery covers etc.)

### PRECIOSA CRYSTAL COMPONENTS COMPLY REQUIREMENTS OF PRODUCT CLASS II.

(except Cabochons without hot fix)
